

EAGLE PROJECT WEB SITES

The site below should be the first you visit. Go to the *forms* icon, there you will find the twelve steps to become an Eagle, the project leadership work book, and the application to become an Eagle Scout all of which can be downloaded from this site.

www.dacbsa.org

www.bsa.scouting.org/boyscouts/eagleproject/dload.html (This site downloads the Official Project Workbook, the document which **MUST** be used for writing up your Eagle project!

www.bsa.scouting.org/boyscouts/eagleproject/58-728.pdf (This site will download an application to become an Eagle Scout. If you download the application from this site, remember the two pages must be printed back to back as the application is a single sheet of paper, and that is the *only* way it will be accepted by the National Council. **Please note requirement #6 on the application. It does not appear in either the requirement book or the Official Boy Scout Handbook!**)

If you want to look at a great deal more information you can use your favorite search engine to do so. I type in www.google.com then type in *eagle projects* or *eagle scout projects*. I think you will find more information here than you can possibly need. But keep in mind, only the above listed sites are officially sanctioned by Boy Scouts of America. Good luck!
